Your shopping trip on Thutera

Just recently discovered, Thutera is the closest liveable planet on the outskirts of our solar system. It's a bit different out there, but the people are very friendly.

You are one of the few students chosen to participate in a study exchange on Thutera. Aren't you the lucky one!

You'll need to do some shopping when you reach the planet. Please visit the Intergalactic Shopping Centre to buy the following items:

- › A **new pair of shoes** to suit Thutera's environment.
- › A **gift (chocolate)** for your host family.
- › A **cultural guidebook** to help you at Thutera's only interplanetary school.

Happy shopping!

Your shopping money

Didn't we say Thuteran people were really nice?

You just earned  **160 solars** (Thutera's currency) from the Thuteran government for taking part in this exchange program. This money has been added to your app wallet.

A word of advice. Remember to think about your budget, reasons for your choices, and what you can or can't afford as you buy the things on your list.

Choose your own path and discuss your choices with your friends or family as you complete this journey.

Enjoy the trip, and stay cash clever!

Keeping track of your solars

Here are two easy ways to keep an eye on your solars.

- › The app screen will show you a running total of how much you have in your wallet at any time.
- › Use the spending tracker on page 6, write in your purchases and update them as you buy or swap items.

Hot solar tips

- › To make the best spending choices for yourself, start with a plan of how much you want to spend on each item.
- › Remember, you don't have to spend all your money!
- › If you run out of money, you can return to the shops to choose a different item.

Spending Tracker

After each purchase, think about how much money you've spent and how much you've got left from what you had originally planned to spend on that item. At the end of the trip, calculate the **TOTAL** money you have saved.
 (Save = Earn - Spend)

Money you've earned (A)	Item purchased	Money spent on item	Money remaining from what you planned to spend on this item
 160	Shoes		
	Chocolate		
	Guidebook		
			
TOTAL money you've saved (A-B)		TOTAL money you've spent (B)	

You have arrived at Thutera's Intergalactic Shopping Centre and are ready to buy the items on your list.
